

Estimate parameter values:  
no correction for CE shortening

Assign:  
estimated parameter values to  $P_{old}$ .

Estimate parameter values:  
correction for CE shortening

Assign:  
estimated parameter values to  $P_{new}$ .

Is the difference  
between  $P_{old}$  and  $P_{new}$   
less than 0.1% for  
all parameter values?

YES

Final estimated parameter  
values are  $P_{new}$ .

NO

Assign:  
 $0.7 \cdot P_{old} + 0.3 \cdot P_{new}$  to  $P_{old}$ .

Estimate parameter values:  
correction for CE shortening

Assign:  
estimated parameter values to  $P_{new}$ .
